

## DevOps Engineer

Company: Urban Games GmbH  
[www.urbangames.com](http://www.urbangames.com)  
Start date: as per agreement  
Employment: 100% or as per agreement

Urban Games is an independent PC video game developer based in Schaffhausen, located centrally and just 36 minutes from Zurich. Urban Games' third title, Transport Fever 2, was successfully released in late 2019 and enables the company to continue growing. Urban Games offers the opportunity to work on unique games in a creative work environment and career opportunities with competitive salaries.

A DevOps engineer plans, implements and maintains automated systems and tools for testing, building, deployment and crash reporting.

### Responsibilities:

- Implement and maintain an automated testing environment
- Maintain the build and deployment pipeline
- Enhance the internal crash report analysis system
- Write and maintain test cases
- Assist in testing and reproducing bugs
- Manage IT infrastructure

### Requirements:

- Bachelor's degree in computer science or related field
- Excellent scripting skills (Python, Shell, Bat)
- Experience with C++ development
- Good analytical and problem-solving skills
- Ability to work well under pressure and handle multiple tasks
- German and English communication and writing skills (B2 at least)

### Preferences:

- Professional experience in continuous integration and test automation
- Professional experience in system administration
- Experience with build systems such as CMake
- Experience with CouchDB and JavaScript
- Experience in game development
